## **ECPC 2 Will Deliver TA Using Evidenced Based Practices IN Collaboration with Others**

# Definition of TA

**The provision of  
targeted and customized supports;  
to develop or strengthen processes,  
knowledge, application, or  
implementation of services  
by recipients.**

[•\(Early Childhood Education Professional Development: Training and Technical Assistance Glossary, NAEYC & NACCRRA, 2011\).](#)

# Effective TA:

Supports the reflective processes that professionals need to translate the theories and information learned through education and/or training into best practices.

May include mentoring, coaching, consultation, PD advising, and peer-to-peer TA.

May use strategies that are discrete processes, or used as part of education and/or training programs.

Should be embedded in the recipient's broader professional development plan.

Is relationship-based and builds positive, trusting, and respectful relationships.

## Continued:

May be delivered by an individual or a team, to one individual or a group

May include combinations of information and resource dissemination and referrals, coaching, mentoring, consultation, and professional development advising, peer- to-peer TA, as well as other forms of support.

May use varied levels of duration and intensity depending on need and resources.

May be provided face-to-face, through distance, technology-based, or hybrid methods.

**•(Early Childhood Education Professional Development: Training and Technical Assistance Glossary, NAEYC & NACCRRA, 2011).**

# Caveats:

- **TA techniques are not sufficient, and should be**
  - **augmented with relationships.** Trust, collaboration, respect, and encouragement were frequent supports to effective TA;
- **Relationships are not sufficient and should be**
  - **augmented with techniques** using goals that are specific, measurable, attainable, realistic, and time-bound, **or there is a risk that the TA will not be accomplished.**

# Strategic Planning Sequence

# PRINCIPLES OF STRATEGIC PLANNING

- **Strategic planning is directed toward creating a future that could be, rather than reacting to a future that will be.**
- **The process of strategic planning is as important as the product because the process is designed to create understanding, consensus, and commitment through interactions of leaders and stakeholders.**
- **Strategic plans must be sufficiently broad to provide flexibility and sufficiently specific to provide direction for functional and operational planning.**

# THE STRATEGIC PLANNING PROCESS: KEY CHARACTERISTICS

---

- Focused and Decision Related
- Future Oriented
- Fact-Based
- Avoids Over-Generalization
- Explores Alternative Solutions
- Reassesses Decisions Over Time
- Politically Realistic

## MODEL DEMONSTRATION TO SCALING UP THROUGH REPLICATION AND FURTHER IMPLEMENTATION

- *A specified set of activities* designed to put into practice a policy, activity, or program of known dimensions.
- Implementation processes are purposeful and defined in sufficient detail such that independent observers can detect the presence and strength of these “specified activities”

## PHASE ONE Exploration

Develop core planning team and project liaison

Identify stakeholders for strategic planning team

Identify a date and place for strategic planning

Complete self assessment of the framework

## PHASE TWO Installation

Invite stakeholders to be part of strategic CSPD team

Develop strategic plan

Assign stakeholder to CSPD component workgroup

Establish meeting and reporting schedule

## PHASE THREE Implementation

Objectives and activities of strategic plan

Engage in problem solving activities

Workgroups document, evaluate, and report findings recommendations on tasks

Coordinate across all components and workgroups of CSPD to review progress and make recommendations to CSPD objectives

## PHASE FOUR Standardization

Reassess and prioritize objectives and outcomes based on results of implementation annually

Prepare annual report of planning group process and recommendations

Develop an evaluation process of the state's CSPD components

Evaluate CSPD and recommend needed modifications for sustainability

# MAJOR THEMES IN IMPLEMENTATION LITERATURE

---

1. Assessing readiness and capacity
2. Structure of the implementation process
3. Engagement and buy-in
4. Program installation
5. Outcome evaluation and fidelity monitoring
6. Feedback and quality improvement
7. Innovation and adaptation

# So How Do We Maximize Effective TA?

- Form A Leadership Team
- Gather Stakeholders to Identify Needs (eg. Focus  
•Groups, Think Tanks, Meetings etc.)
- Confirm Needs Through Systematic Assessments  
•(Scans, Surveys, Interviews of Informants, etc.)
- Prioritize Needs
- Develop a Logic Model of State Needs: Outcomes
- Identify Current Resources
- Identify Needed Resources

**•"I think you should be more explicit here in step two."**

**AND THE MIRACLE:**

---

**Develop A TA Plan**

**To HELP YOU**

**Meet Your State Needs**

# AND.....

- **Develop Measurable Goals, Objectives and Activities**
- **Develop Timelines and Responsibilities**
- **Implement Goals, Objectives and Activities**
- **Measure and Keep Measuring Outcomes of....**
