# A Comprehensive System of Personnel Development (CSPD)

Addresses the following challenges:

- Shortages of personnel
- Need for additional training at both the preservice and inservice levels
- Discrepancies with state adherence to national competencies and standards
- Challenges faced by EC personnel due to the diversity of needs and young children served
- Inequities of preparation and compensation among those providing services

# An Effective Comprehensive System of Personnel Development (CSPD)

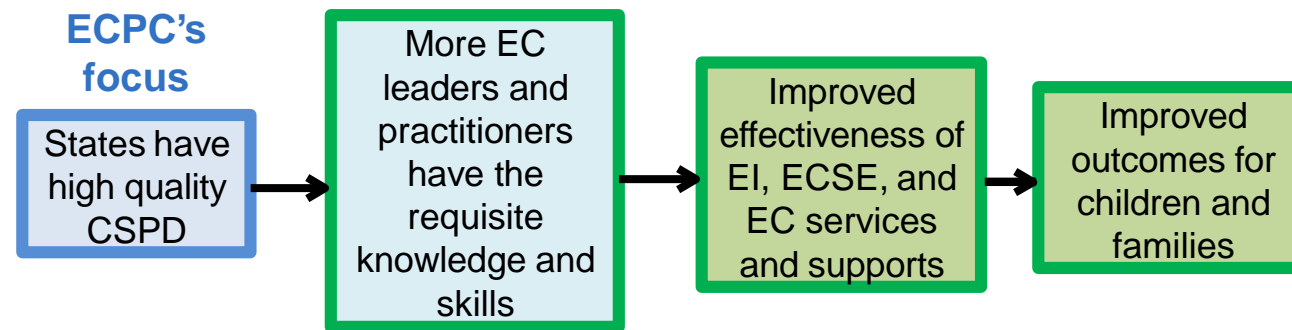

- Coordinates and addresses state needs for quantity and quality of EC personnel and their degree of support required
- Acknowledges the coordination between pre- and in-service personnel development (PD) to ensure consistency of practice
- Stays informed through ongoing evaluation via multiple sources and monitors the results and capacity to implement child and program quality standards

# Why do we need a CSPD?

- A CSPD is the primary mechanism by which a state ensures that infants, toddlers, and young children with disabilities and their families are provided services by knowledgeable, skilled, competent, and highly qualified personnel, and that sufficient numbers of these personnel are available in the state to meet service needs.
- An effective CSPD is key to promoting both effective practices and the implementation of legal requirements as determined by the IDEA.

## Theory of Action

**Note:** The working assumption is that the blue box will produce the green boxes. Large scale change will occur after the 5 years of the Center.

Tips to use when recruiting families to participate in the state Comprehensive System of Personnel Development (CSPD) team.

**1.) PROVIDE BACKGROUND INFORMATION**

Provide detailed [background information](#) prior to any meetings so everyone is on the same page.

**2.) PROVIDE ACRONYM LIST & LIST OF TERMS DEFINED**

Provide resources so everyone knows what is being discussed, don't assume everyone understands the terms being used. [Acronym List](#)

**3.) PROVIDE A WELCOMING ENVIRONMENT**

Offer an opportunity for everyone to speak and invite them to participate. Are there other families participating? If so, do the families have an opportunity to connect.

**4.) WHAT ARE THE EXPECTATIONS TO PARTICIPATE?**

Make sure the family knows what is expected of them, reading ahead of time, time and location of the meeting, parking, lunch options, dress attire. Is there a virtual option?

**5.) BE INFORMATIVE AND APPROACHABLE**

Provide a mentor or someone for the family to connect with prior to the meeting and as a follow up in case they have questions.

# What role do families play in this work?

We are here to represent the voice of the family.

We are here to make sure this work is rooted in real life.

We are here to provide the lens of people who have actually walked this path.

We are here to make sure that no one loses sight of the fact that the purpose of this work is better outcomes for our children.

If each person has a different part of the elephant, we are the heart!

**What is a Comprehensive System of Personnel Development (CSPD)?**

A system designed to address the challenges faced in the Early Childhood (EC) workforce, including:

- Shortages of personnel
- Need for additional training at both the pre-service and in-service levels
- Inconsistent alignment of state and national competencies and standards
- Challenges faced by EC personnel due to the diversity of needs of young children and their families
- Inequities of preparation and compensation among those providing services

An effective system must:

- Coordinate and address state needs for quantity and quality of EC personnel and their degree of support required
- Acknowledge the need for coordination between pre-service and in-service to ensure the consistent use of evidence-based practices
- Monitor progress through ongoing evaluation to assess the capacity to implement program quality standards that result in improved outcomes for children and families

**About a CSPD**

- A CSPD is the primary mechanism by which a state ensures that infants, toddlers, and young children with disabilities and their families are provided services by knowledgeable, skilled, competent, and highly qualified personnel, and that sufficient numbers of these personnel are available in the state to meet service needs.
- An effective CSPD is key to promoting both effective practices and the implementation of legal requirements as determined by the IDEA.
- An implementation framework is followed to develop a CSPD. During the installation phase the state conducts a strategic planning meeting where an action plan for each of the 6 subcomponents of the CSPD is developed. The action plans outline specific steps for each workgroup that need to be completed within one year.

### How Does A State Create A CSPD?

- ECPC uses the Guide to Intensive TA<sup>1</sup> to assist states who are committed to building a state early childhood CSPD.
- The state team completes the Personnel/Workforce Component of the ECTA Early Childhood System Framework<sup>2</sup> (**ECPC-CSPD Self-Assessment**); this guides in the planning, development, implementation and evaluation of a CSPD.
- The strategic planning team develops the state CSPD vision, mission, and work plans for each of the six subcomponent workgroups.
- Each workgroup meets monthly and reports progress across all groups.
- The 18-month implementation framework uses 4 distinct and sequential phases. Each phase addresses 3-5 objectives that must be obtained by the state's leadership team in order to establish and/or maintain the framework of the CSPD.
